

Enhanced 5S Workplace Organization

Duration : 2 days
Fee : € 1.495

Key Benefits:

- Understanding the true 5S potential
- How to involve and engage everybody in 5S workplace organization
- How to sustain and how to take the next steps
- Ready to implement

Target Audience:

Operation Managers,
Manufacturing, Maintenance,
Production / Industrial
Engineers, Supply Chain
Managers, General Managers

Why is it Enhanced 5S?

Firstly the program is an operational program which 'Makes It Work' while we train and induct, focusing on '**A New Experience within the Organization**'

Secondly we shall establish together a '**Can Do**' attitude and establish both a **Structure** and **System** which is continuously employed and progressively improved.

Thirdly we shall establish a '**Meaning for All**' attitude, with a continuous review and ongoing improvement in each area we will work in.

Imagine how this can contribute to Safety, Change Overs and Overall Equipment Effectiveness, Quality and Elimination of Wastes.....

Understand how Enhanced 5S Workplace Organization will help your team to become more effective!

Overcome the 'Here We Go Again' attitude from a small group of associates. As we have implemented this system in so many companies the Positive Change makes the negativity disappear.

This is what makes our approach to 5S a leading way to implement and establish an 'Enhanced Process Of Improvement'

Course Objectives

- Introduction to Enhanced 5S Workplace Organization
- Provide the participants with the understanding and techniques for an effective implementation process
- The additional benefits from 5S Workplace Organization
